Re: **OSHA's Cranes and Derricks Negotiated Rulemaking Panel**
Nominee: Robert Weiss

Gentlemen:

The Building Trades Employers' Association is an organization 1500 members, where leaders of New York City's top construction managers, general contractors and specialty trade contractors work together with the leaders of the major trade associations to address key policy issues relating to the construction industry. Robert Weiss, in his position of project manager for A. J. McNulty and membership in the Allied Building Metal Industries, Inc., has served on, and devoted many hours to, several of the BTEA committees for the ultimate improvement and advancement of the unionized construction industry, especially on our Safety Committee.

Bob is well respected among his peers in the industry because of his diverse knowledge and experience and his willingness to commit whatever time and energy required to complete a project or resolve an issue.

It is with this in mind that we wholeheartedly support the nomination of Robert Weiss to OSHA's Cranes and Derricks Negotiated Rulemaking Panel, and respectfully request that the US Department of Labor appoint Mr. Weiss to this Panel as he possesses the knowledge, experience and the enthusiasm to be a true asset to this Panel and the US Department of Labor.

Thank you for your kind consideration of this nomination.

Sincerely,

Louis J. Coletti
