Proposed Revision of Subpart N for cranes and derricks

In line with your request in the Federal Register we wish to reconfirm our views given to you and nominate a member for the negotiating group.

- The introduction of new technology, (first available Sept '97), will prevent the main cause of construction crane fatalities.
- We have a partnership program with St. Paul Construction Insurance.
- Our product is endorsed by Special Risk Services Group Inc.
- Our nominated person is the World's leading authority on Insulating links.

Yours truly,

Hugh Pratt
