Re: Proposed Crane rule committee

S-030

EX. 2-24

Dear Sir or Madam,

Please accept this letter in consideration for nomination to the rulemaking committee for cranes that is currently under consideration as published in the Federal Register (67 FR 46612).

I have been involved in the Tower Crane industry for the past 22 years, and currently I am the National Service Manager for Morrow Equipment Company, L.L.C., distributor of Liebherr tower cranes in North America. In addition, I also serve on the ASME B30 committees of 30.3 and 30.4, both of which cover the scope of tower cranes.

I have been actively involved with CALOSHA in many areas of crane safety, and I believe I could bring to the board a solid background in the tower crane industry. I have attached a copy of my current resume for your consideration. My Company fully supports these issues and would provide the financial assistance to attend conferences, meetings and other travel expenses required to fulfill the obligations of the board.

Should you require any additional information, or if there are other steps I need to take for consideration, please contact me at 503-585-5721 ext. 554, or at p.juhren@morrow.com.

Best regards,

Morrow Equipment Company, L.L.C.

Peter R. Juhren
National Service Manager
