Re: Nomination of Steel Miller for Subpart N NegReg

Dear Sir or Madam:

Since the Agency and the Secretary is open to nominations for a position on the Negotiated Rule Making Committee for OSHA Subpart N – Cranes and Derricks Safety Rules, I would like to nominate and support Mr. Steve Miller for this position.

Throughout the country there are outstanding individuals who know several aspects of the crane industry, but Steve Miller will bring a well-rounded versatile attitude to the committee. Having been a qualified crane operator for a number of years and then extending his knowledge and expertise into safety, training, and inspector he has proven himself an asset to us with our company and this region. We believe he will serve the entire crane industry as well.

As a 30 year active member of Iron Workers Local 24 and the President of B & C Steel, Inc., I personally have had the chance to work with and evaluate personnel in the crane industry. Our company owns, sets steel and precast for their own projects, rents-out cranes for commercial, industrial, and residential entities, in-house repairs, rebuilds, and continuously maintains our equipment. We belong and actively support SESAC, OSHA Partnership for Steel Erectors, Colorado Steel Erectors Association (CSEA), Iron Workers Joint Apprenticeship Program, and the Operating Engineers Local 9.

My thanks and confidence to your Agency for your endeavor to review the Crane and Derrick Safety Rules by empanelling intelligent knowledgeable committee members such as Steve Miller.

Respectively submitted,

B & C STEEL, INC.

Clair D Boyd
