Docket No. S-030  
Department of Labor  
200 Constitution Ave NW – Room 2625  
Washington, DC 20210

ATTN: OSHA Cranes and Derricks Negotiated Rulemaking Advisory Committee, Reference July 16, 2002, Federal Register

To Whom it May Concern:

I would like to place my name in nomination for the Negotiated Rulemaking Committee for the new Crane and Derrick Standard to update 29 CFR 1926.550. I would like to represent the crane manufacturing interest on the Committee.

I have been employed by Manitowoc Cranes, Inc. (formerly Manitowoc Engineering Company), a division of the Manitowoc Company, for over 6 years as follows:

- 1981 – 1985 Project Engineer, Concept Development
- 2000 – present Director, Engineering

I have participated in AEM/CIMA/PCSA Crane technical meetings. I also have field experience in the commissioning of new cranes as well as accident investigation and application review. I graduated from the University of Wisconsin with a Bachelor's of Science in Mechanical Engineering. I subsequently earned a Master's Degree in Engineering from the University of Michigan. I am also a Registered Professional Engineer in Wisconsin.

I will further make a personal commitment to actively participate and negotiate in good faith as a crane manufacturing representative in the development of the new Cranes and Derricks Rule.

Sincerely,

Dennis J. Janda, P. E.  
Director, Engineering
