Re: Docket No. S-030  
Cranes & Derricks Negotiated Rulemaking Advisory Committee

Dear Ms Ford:

As I noted in our recent phone conversation, I am most interested in participating in the upcoming negotiated rulemaking process for 29 CFR 1926.550. I have worked exclusively in the crane and heavy lifting industry for over 32 years. For the first 17 years I was a chief engineer for former crane manufacturer American Hoist & Derrick Co., and for the last 15 years I have been the principle of Landmark Engineering Services Ltd. which provides crane application and rigging consultation services to the lifting industry. I am a member of the ASME B30 main committee and the B30.5 subcommittee. I am also a commissioner on the National Commission for the Certification of Crane Operators.

My problem is that I simply do not have the additional time to attend what I understand may be a very aggressive meeting schedule planned for the negotiated rulemaking. I nonetheless believe this is a critical undertaking and would like to contribute to the effort. I would very much like to keep abreast of pending proposals and, if appropriate, provide comments. Toward this end, I would respectfully request that, if possible, my name and address be placed on any mailing list for committee updates/minutes should one be developed.

I can be reached at any of the following:

Phone: 651-482-9750  
Fax: 651-482-9765  
e-mail: landmarkengr@earthlink.net

Mail: Ron Kohner  
Landmark Engineering Services  
2489 Rice St. - Suite 204  
Roseville, MN 55113-3723

I have enclosed a copy of my resume to document my career experience. I would appreciate any help you can provide in this matter. If you have any questions or if I can be of any assistance, please feel free to contact me at any time.

Respectfully submitted,

Ronald M. Kohner, PE  
RMK/kak
