S030
Ex. 2-48

The Association of Crane & Rigging Professionals (ACRP) wishes to submit Mr. James T. Cahill, JF White Contracting Company, for membership on the Crane and Derrick Negotiated Rulemaking Advisory Committee. Mr. Cahill is an Officer and member of the Board of Directors of ACRP with long time involvement in the crane and rigging industry.

Mr. Cahill was selected to be presented as a candidate for the above committee by the ACRP Board of Directors based upon his background, knowledge of the industry and successful execution of numerous association projects while serving as chairman of various ACRP committees. You will find confirmation of this expertise in Mr. Cahill's resume, which is attached.

The association feels strongly that Mr. Cahill's credentials will substantiate our request for his appointment and that he would be a genuine asset to the committee in their efforts to update and establish rules for the industry.

As an association, ACRP's purpose is to promote lifting equipment safety, improve the quality of lifting equipment training, consulting and inspection for all those who are involved in lifting and rigging activities in all industries and represent the crane and rigging industry in regulatory forums. To this end, we fully support Mr. Cahill as a candidate for the C-DAC committee and look forward to your favorable response.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Parnell', written over a faint, illegible background.

Michael Parnell
Chairman of the Board, ACRP
