RE: Follow-up to March 3-5, 2004 Meeting

Attached please find the following materials:

- Draft summary of March 3-5 meeting
- Final summary of February 4-6 meeting

All are attached as Word and PDF files.

Noah and his team are working hard to complete revised and draft reg text for your review at our May meeting. Noah will distribute it at the earliest possible date to give you time to review it and to check in with people and groups you are representing.

I am working on the meeting agenda and will send it to you shortly. OSHA is working to put together a panel of its medical experts to answer your questions about physical examination requirements for crane operators.

**Reminder:** We have added a day to our next meeting, which will be held Tuesday - Friday, May 4-7 in Washington, DC. The meeting will begin each day at 8:30 am and end at 4:30 pm, except for Friday, May 7, which will end at 12 noon.

If you have any questions about the attached documents or any other aspects of the negotiated rulemaking, please feel free to call or email me.
