Docket S-030
Ex. 66-11

80 T Link Belt

50 T Loraine

45 T Link Belt

4 T Auto

A. Operator Certification

1. Management Supervisor Certification
2. Allow contractor certification - require test to meet "reasonable" standard
3. Allow existing state certification/s to meet OSHA criteria in that state.

B. Critical Lift

1. Require special planning if lift exceeds 95% of capacity as define by the lifting chart.

C. Actual Standard Text

1. No incorporation by reference - all requirements actually stated in Subpart N text.
