Washington, DC 20210

RE: Docket Number S-030

To Whom It May Concern:

I am the President of J.L.Dobbs, Inc. and I am writing this letter in support of the U.S. Department of Labor's use of the negotiating rulemaking process in developing new regulations and specifically the draft document for a new proposed rule under Subpart N.

Since 1970, CFR 1926.550 has had minor changes and is long overdue for a rewrite to reflect current practices governing lifting equipment in the construction industry.

I have reviewed the proposed rule for Subpart N and support the recommendations of the C-DAC Negotiating Rulemaking Committee. I feel that the construction industry has been represented well under this process and constructions sites nationwide will be much safer in the future when the draft document becomes a final rule.

Sincerely,

Jeffrey L. Dobbs  
President
